Chassis	\$450.00
Runabout	475.00
Touring Car	495.00
Coupelet	695.00
Town Car	780.00
Sedan	890.00

f. o. b. Ford, Ontario

These prices are positively guaranteed against any reduction before August 1st, 1917, but there is no guarantee against an advance in price at any time.

Before giving your order for a car see the new model of the Ford. It is improved very much in appearance and the 5 Passenger car costs \$550.00 delivered.

N. E. Stuart & Co.

Get your granary built before threshing.

Most of the grain will yield more than the farmers are expecting, according to reports coming in from districts where grain has been threshed; therefore you had better stick up another bin or granary.

Lumber is steadily advancing in price—buy early and save the big \$8882.

LOCALS

C. J. Steele spent last week end in Medicine Hat.

Send in your renewal to the News. Do it now.

General Manager McBean, of the Atlas Lumber Co., was in town on Tuesday.

Wanted to Purchase. A second hand large arm rocking chair. Apply at News Office. Box C

Miss Anna Martensen, of Suffield, has taken a position at the American Hotel.

Albert Wagar went to Medicine Hat on Wednesday and will attend school there for the next term.

Miss Lalond who has been the guest at the home of Eli Woods left last week for North Bay, Ont.

FARMERS—You are reminded of the sale of 20 heavy draft Mares in Alderson on Monday Sept. 11th.

Boss—At Medicine Hat General Hospital on Wednesday, Oct. 30th, to Mr. and Mrs. Stanley Thomas, a boy.

Mrs. Lemen and her daughter, Mrs. W. Arthur of Owen Sound, Ont. were guests on Friday of Mrs. F. C. Woolven.

This is certainly Alderson's building year. The News will shortly be allowed to announce the erection of another store building in town.

Harry W. Johnson and Bob Elliot returned from a trip to Calgary on Tuesday. They returned in the Ford car that Bob purchased while in the city.

Agent Williams of the C. P. R. is on a months vacation to be spent in New York and other points east. Mr. A. W. Stewart is relieving agent. Mr. Stewart is accompanied by Mrs. Stewart.

Monday, Sept. 4th, is Labor Day. Out side of a few shooting parties that are being arranged it looks as if there would be no observance of the holiday in town. Then there is a horse sale scheduled for that date.

In a recent letter to friends in town Geo. Shields imparts the information that he has met his old friend Frank Flannery. It seems that Frank is still in the Transport Service "Somewhere in France."

W. B. Bowler has arrived in town and has taken the position of Asst. Manager at the Atlas Lumber Co. Manager Riddell of the Atlas Co. reports that the volume of pre-harvest business at the Atlas yard was fine.

George Saterlee, the well known auctioneer of Medicine Hat, will offer for sale on Monday, Sept. 4th, at the Alderson Stock Yards, 24 head of horses, the property of Lieut. Harry Gerow. See ad. in this issue.

Frank L. Brown returned home on Saturday evening after spending several weeks at Banff, taking treatment for rheumatism. All are pleased to know that Mr. Brown is in much better health than when he went up.

Harry W. Johnson announces a sale of 20 head of horses for Saturday, Sept. 2nd, at 1.30 p.m., for A. Cameron of Calgary. The horses are mostly mares and first class stock. The sale will take place at Colby's Barn.

The representatives of Bennett and White, the Calgary contractors who are building the big Stuart Store, have also taken the contracts to erect the new Drummond Store and a nice new residence for Bert B. Brigham.

Mrs. O. J. Wood and the children, and Miss Graham, who have been spending a couple of months at Vancouver and the Coast returned home on Monday evening. Mr. Wood, who also spent his vacation at the Coast returned on Friday last.

Pat Burns Hox of Calgary spent Tuesday in town. Mr. Hox friends in the district will be pleased to learn that the operation performed on his baby daughter while in a Toronto Hospital appears to have been entirely successful. The operation was a very delicate one on the spine and it is said to be one more triumph for modern surgery.

The Free Methodist Church will hold a quarterly meeting here, beginning on Friday evening, Sept. 1st, and extending over Sunday. There will be services in the School House on Friday evening, Saturday afternoon and evening, and Sunday at 10 a.m. Elder Shoup of Edmonton, and Rev. R. R. Haight of Truett, Alta., will be in attendance.

There was a little Wild West skit staged at Jenner last week. It seems that when a homesteader, named Kimberly, was returning to his shack in the evening was driven away from it by an unknown occupant who flourished a gun. Corporal Hutchings and Constable McPherson of Jenner were notified and attempted to secure the marauder, but were met with gun fire. No one was hit, however, and when the officers did get into the house they found the outlaw had shot himself, and was lying on the floor. He appears to have been an Austrian. He was unknown in the district.

WHEN WE SELL YOU A NEW "LID" IT WILL BE RIGHT UP TO THE LAST TICK OF THE CLOCK IN STYLE.

LOOK AT YOUR OLD HAT. THEN COME IN AND LOOK AT OUR NEW ONES. WHEN YOU DO YOU WILL BUY A NEW ONE, BECAUSE WE WILL HAVE THE ONE WHICH WILL SUIT YOU TO A "T."

Tiring, Ceaseless Back-Ache Cured Can Be Rubbed Away To-Night

Relief in Almost Unfailing
From the First
Application

RUB ON NERVINE

Cold has a vicious way of finding out aching muscles or weak joints. How often pain settles in the back, causing inflammation and excruciating aches. Stiffness and aching all over follow.

An application of Nervine at the start gives immediate relief and prevents worse trouble.

When the pain is very acute, Nervine has a chance to show its wonderful penetrating and pain-subduing power. It strikes in deeply, and its strike-draws quality quickly proves its superiority to feeble remedies. Then this goodness is magnified by

its strength, easily five times greater than any other remedy. Nervine is purely, surely and curative. It is the only guaranteed remedy for rheumatism. It is the only guaranteed remedy for rheumatism. It is the only guaranteed remedy for rheumatism.

No curable pain, not even neuralgia, lumbago, sciatica or rheumatism, can resist the magic power of Nervine. Try it today. Rub it on your tired back. It will ease your sore muscles, lift, take the swelling and stiffness out of your joints. It is a marvel—thousands say so that use Nervine.

The large 50¢ family size bottle of Nervine is more economical than the 25¢ trial size. Try Nervine. Try it today. Rub it on your tired back. It will ease your sore muscles, lift, take the swelling and stiffness out of your joints. It is a marvel—thousands say so that use Nervine.

How Wounded Canadians Are Cared For at the Front

The official Canadian casualty list now contains over 25,000 names. This constitutes a large army of wounded soldiers who are being cared for at the front.

Our medical units are to be found in England, Belgium and the Mediterranean. In the latter district, Canada has the largest number of medical officers, nurses and orderlies.

At the beginning of the war an act was made to place our wounded in Canadian hospitals, but this was found to be impracticable.

Each unit in the field, however, is sent to the Canadian Red Cross, which is the first stage of a soldier's treatment. The Canadian Red Cross is the first stage of a soldier's treatment.

Most of the common weeds which infest cultivated crops live only one year. They produce lots of seed. These live long enough in the ground so that even after four or five years of mowdown or pasture they are still able to do damage to cultivated crops.

There is no easy way to get the weeds out. The crops should be kept as clean as they conveniently can. The land here must be used as a cultivator cannot be depended upon to destroy all the weeds. The Dutch or most herb is the available article for this purpose.

In some sections the weeds which live from year to year and spread by underground rootstocks as well as seeds are troublesome. These are Canada thistle, horse-nettle, and morning glory are the most common of this type. These pests have about as much fight in them as the common annual weeds.

If they are cut off at the surface of the ground they come up again and again. But if you keep at it long enough you can kill them and infest with this kind of weed is often beaten by putting alfalfa or pasture.

Frequent mowing of the weeds which live from year to year and spread by underground rootstocks as well as seeds are troublesome. These are Canada thistle, horse-nettle, and morning glory are the most common of this type. These pests have about as much fight in them as the common annual weeds.

Electron Agent That was a good long speech our candidate made on the agricultural question. He said, "Farmer Plowson, Oh, if it wasn't bad, but a couple of nights' good rain'd do a dose of a good article."

The Canadian Red Cross Society requests all workers to make no more surgical pads, compresses or wraps, or roller bandages, until further notice. Col. Hoegs, the commissionaire, who has together made a recent tour of inspection in England and France, announced that for the present the Red Cross has sufficient supply of the above-mentioned articles.

Workers are requested to continue making socks, shirts, pyjamas and comfort bags.

Minard's Liniment Cures Diphtheria.

Germany Try Poisoned Arrow. Charles Cotter, of Oklahoma, recovered from the effects of a poisoned arrow by the use of Minard's Liniment.

He adds that the British allowed the cruiser Koestler to sail up the river to a dangerous point, and that the Germans were in the manœuvre, but for tricks in war the Germans are crafty in their manœuvre, but for tricks in war the Germans are crafty in their manœuvre.

Farm Grifters

Ravages of Parasites on Farm Animals Should Be Checked.

To graft to live at the expense of someone else. If the one at whose expense the grafting is done knows it, it is done without his knowledge and he becomes a victim of a crime-graft.

In either case the grifter is what is known by another name, parasite. The parasite is a creature that lives on the body of another creature, and plants and animals are criminal grifters and should be dealt with accordingly.

When found, the extreme penalties should be meted out to the grifter. Upon them, for farming is a war as well as a business.

If there is any time of the year when the chickens should be watched carefully for lice and mites, the worst grifters in the poultry business, it is right now. The warm weather stimulates their growth and development. The chickens are rendered more or less indolent by the summer heat, so they do not fight these pests as hard as they do in the winter months, so they do not fight these pests as hard as they do in the winter months.

Among the livestock, chickens are most apt to suffer from the ravages of parasites or grifters than any other animal. They are the most easily and given every aid possible to get rid of them. The best way is to use a good disinfectant which is now building the foundation for its future avenger. Spray the birds with a good disinfectant, and if you find them with lice, stretchers or on their backs, and our own disinfectant.

They were the remnants of the third Prussian Guards division, which was the last of the Prussian Guards division, which was the last of the Prussian Guards division, which was the last of the Prussian Guards division.

After Coming Into Contact With Britain's New Army, Are Glad To Be Released.

Phil Gibbs, of the London Daily Express, writing from the British front, says that the Prussian Guards were taken, and they came back to the front in a miserable little group. Some of the soldiers were taken, and they came back to the front in a miserable little group.

Typhoid Toxins

Simple Precautions That Can Be Taken to Guard Against Infection.

The rules for protection against typhoid, as laid down by the health department, are as follows:

1. Patients only receive that have a safe water supply and approved food.

2. Address a letter to "The Health Officer of the village or town to which you are contemplating going, and ask him if the water and milk supply are safe and the surroundings are free of a proper way.

3. See that all outcrops are fully protected by screening doors.

4. Thoroughly wash in pure water all fruits and vegetables.

5. Wash the hands, using nail brush freely, before eating.

6. Before leaving for vacation, submit to typhoid inoculation. It usually protects about four years.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant is troubled by worms. Miller's Worm Powders will get rid of the worms.

Teaching a Boy to Swim

Has a History

What to Do and What Not to Do to Establish Confidence

There is a prevailing notion, especially among a certain type of fathers, that the surest and quickest way to teach a boy to swim is to throw him over his head and let him "go to it." Probably a surer way to destroy a boy's confidence in the water has never been devised. Thousands of boys are thrown in the water without knowing how to swim, and have conceived a fear of the water by this foolhardy method that nothing has ever been able to remove.

No confidence is ever secured by a violent introduction, and the father who thinks along this line of teaching his boy to swim is making a fundamental mistake which he and his family will regret for years. The wise father or teacher of swimming is the one who has the confidence by first getting him accustomed to the water in shallow places, and then gradually leading him to deeper and deeper water until he has ventured beyond his depth. This is not the "dip" method of teaching boys how to swim, as some fathers like to think it; it is the method of the professional swimmer, the father without a knowledge of swimming, and the mother who has learned from the Ladies' Home

Some thirty miles to the east of El Arish, on the Egyptian-Syrian boundary, lies the ancient Raphia, now called El-Rafah. It is a small town, but it is the site of a battle which was fought in 1187 between the Egyptian and the Syrian forces. The battle was a decisive one, and it was the last of the Crusades.

There is no preparation required. Simply apply the oil to the burn or scald and it will be healed in a very short time. It is a good thing to have it on hand.

Big Prices of War Officers and Crew of H.M.S. Highley

The officers and crew of H.M.S. Highley have been awarded \$12,900 in prize money for sinking the German submarine U-109.

HOW GERMANS HAVE TORTURED THE UNHAPPY PRISONERS OF WAR

FRIGHTFUL TORTURES INFLICTED BY THE ENEMY

Force Prisoners of War to Perform Convict Labor, and If They Refuse They are Unmercifully Beaten and Subjected to Other Cruelties by the Barbarians

Fresh testimony comes to hand from Germany how the frightful tortures imposed by the Huns by way of punishment on French, Russian and British prisoners who refuse to do the forced labor which the Germans seek to impose upon them. The Paris *Matin* voices the complaint of a French prisoner, who by a lucky subterfuge has come through from Munster to France.

THURSDAY, AUGUST, 31st, 1916

STAFF CHANGES

This week M. B. Huffman, who has been connected with the News for some time, and has shown himself to be possessed of considerable ability in newspaper work, leaves the paper with the avowed intention of joining the Canadian Colors at Calgary. Mr. Huffman will probably align himself with the Rough Riders Battalion shortly to be authorized in Calgary.

The News is pleased to announce that in Mr. Huffman's place we have secured the services of Fred B. Cummer, for several years proprietor of the Inland Press at Calgary. Mr. Cummer is a well known Alberta printer. He has three sons and two daughters. Although very modest about it Mr. Cummer's three boys are all at the Front. The boys, Charlie and Stanley, went with the 56th battalion, and have both been on active service in France, having been transferred to the 14th battalion. The eldest boy, Henry, is with the 89th in England. Charlie was severely wounded in June, but is again back in the firing line. The youngest boy, Stanley, has also been wounded, besides being rendered completely deaf from shell shock. He has been transferred to a hospital in England, and will possibly be sent home before long.

THE CROPS

Cutting the big 1916 crop is more than general, it is now universal, and on Saturday of this week we understand the first threshing operations will be carried on. The party is after that free subscription to the News, so we won't mention any names. Of course he may not wait till Saturday.

EDITORS IN CONVENTION

On Thursday and Friday of last week the Editors of Alberta, to the number of about 30, foregathered in convention at Calgary. Mr. M. B. Huffman represented the News. The Calgary News-Tribune handed the boys of the Fourth Estate, the following welcome in its issue of the 24th:

WELCOME TO OUR CITY.

Welcome to the Alberta and Eastern British Columbia who foregather in Calgary today. If there is one class of men in the West who deserve to rank as empire-builders it is the newspaper publishers. Although harder hit by the war than any other profession or business, they have stuck to their guns and have rendered invaluable service in the dissemination of news and in the stimulating of national activity. No other class of men in our commercial life has made more financial sacrifices or greater donations to the cause of the country than the newspaper publishers, and yet so peculiar is their position that they cannot explain it, nor can they claim the credit that should be theirs. Only the publishers can know the difficulties that have been surmounted since the war began, and that the great majority of the newspapers of 1914 are still living in Alberta and British Columbia speaks volumes for the energy and industry of the men behind these publications.

Without the press this would be a sorry country. Often it is stated that the West is alert and progressive, but it is very infrequently that any credit is given to the press for this desirable condition. However, on such an occasion as the meeting of the editors of Alberta and Eastern British Columbia in solemn convocation, the News-Tribune takes the liberty of removing the muffer and of paying tribute to men who are too modest to speak for themselves.

That they may live long and prosper is the sincere wish of this great family journal.

Union Bank Officials on Tour

Manager O. J. Wood of the local branch of the Union Bank, went to Medicine Hat on Monday evening and met the General Manager of the Bank and the Board of Directors, who are making a complete tour of the branches in Western Canada. On this tour they will personally interview every manager in the service. They make special enquiries as to crop conditions and trade conditions generally. The trip is known as the Directors Tour of Inspection. It lasts from August 25th, when the party left the Head Office at Winnipeg, to Sept. 6th, when they return. The itinerary is very complete and extends all the way north in Alberta to the Grand Prairie Country. A special C. P. R. train has been chartered to convey the party, which includes:

INVITED GUESTS

Gilbert G. Thorne, Esq., Vice-President National Park Bank, New York.
D. A. Moulton, Esq., Vice-President The Corn Exchange National Bank, Chicago.

H. A. Robson, K.C., Secretary.
W. E. Hoffman.

AUCTION SALE OF FARM LAND

Under the provisions of the Land Titles Act there will be offered for sale by Harry W. Johnson, Auctioneer, at the Alderson Hotel, Alderson, Alberta, on Saturday the ninth day of September, 1916, at 2 o'clock p. m. THE SOUTH EAST QUARTER OF SECTION 32, TOWNSHIP 14, RANGE 10, W. OF THE 4th MERIDIAN, IN THE PROVINCE OF ALBERTA.

The soil is a chocolate loam with a clay sub-soil; 45 acres have been broken and were under crop last year and the balance of the quarter section can be easily cultivated; there is on the property a dwelling house 24 x 24 with shingle roof, a barn 10 x 20 and 2 miles of fencing with strands of barbed wire and cedar posts; the land is 4 1/2 miles from Alderson Station and Post Office and 14 miles from a school and in a district fairly well settled.

Sale will be subject to a sealed reserved bid, free from encumbrances except taxes for the current year. Terms of sale: 10% cash at time sale; balance according to favorable terms.

For further particulars apply to WALLBRIDGE, HENWOOD, GIBSON & MILLS, Solicitors, for the Vendor.
DATED this 16th day of June 1916, at Calgary, Alberta.

"The Column" that gets results

Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures best returns in dairying and mixed farming.

Irrigation means intense farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land now record

"Secret of the Submarine"

MUTUAL'S LATEST & GREATEST
FILM NOVEL.

"The Secret of the Submarine" which will be shown at the Alderson Picture House every Tuesday is a wonderfully realistic and thrilling story written by one of our greatest war correspondents and authorities on submarine navigation, R. Alexander Powell.

Mr. Powell was inspired to write his story of "The Secret of the Submarine" by a statement which has been credited to the great inventor Thomas A. Edison, in which he said that he could not see why a submarine would eventually be built with gills like a fish so that it would extract oxygen from the water as it went along, thus eliminating the necessity of rising to the surface periodically for a fresh supply of air. In this way a submarine would be a much more dangerous weapon of war and the nation controlling the invention would practically control the sea.

In the story this invention is supposed to have been discovered and used by all the leading nations of the world are contesting for the control of it. The leading roles are taken by Thomas Chatterton and Juana Hansen one of the most charming girls in motion pictures. The story is full of intense acting and thrilling situations from start to finish. Real submarines are used at all times and enormous wealth was spent to get actual scenes for the various chapters.

With submarine warfare uppermost in the minds of everyone at present "The Secret of the Submarine" is the most popular film novel ever released.

Threshermen and Weeds Act

The Manitoba Weeds Commission takes action to safeguard farmers' crops by sending out from its office blank forms to be posted on threshing machines, for the purpose of the revised Provincial Weeds Act. This section is of great interest not only to threshermen, but also to farmers. In four sub-sections provide as follows:

(1) It shall be the duty of every person owning or operating a threshing machine immediately after completing the threshing of grain at each and every point of working, to clean, or cause to be cleaned, the said machine and every part thereof, and all other utensils used in connection with such threshing, so that seeds of noxious weeds shall not be carried to or on any way to next place of working by the said threshing outfit.

(2) Any person not complying with the provisions of this act shall be liable to a penalty of not less than twenty-five dollars and not more than one hundred dollars, and in default of payment to one month's imprisonment.

Minard's Liniment Cures Garget in Cows

Forestry in Europe.
In England and Wales, according to a recent report of the forestry branches of the British Government, there are nearly 1,000,000 acres of forest, and large areas of uncultivated land on which the Government intend to cultivate a growth of timber. In Denmark the purchase of any forest area, however small, by no means carries the right to administer it in accordance with the desires of the new owner. Until he has been the recipient of a certificate in this area for three consecutive years, he is not permitted to cut down a tree without authority of the Minister of the Interior.

Empire Rebuilders in a Hurry.
Over-anxious politicians by attempting to rush the question of Empire reconstruction can undo the work of all the heroic Empire Builders in British history. The refusal of the Canadian press, generally speaking, to enter into conclusions is very satisfactory. Regarding the rights of the Empire, the flag as well as the Empire itself make it desirable that this very important and difficult Imperial problem shall be paid the respect of close and exacting study—General Mac.

Unwittingly Kind.
Cholly Ayres: Yes, since the Parkers lost their money I have stopped calling there.
Miss Keen: That is very kind of you. It ought to be placed often up a whole lot.

World's Potato Crop

Germany Leads in Total Yield for Year of 1914.
The world's potato crop in 1914 covered 30,000,000 acres, giving a yield of 4,375,000,000 bushels.

Of the total acreage, Norway had 9,000,000 and Germany 8,307,000. Norway led in total yield, however, with 1,074,000 bushels, against less than 1 million for Germany. The United States had 4,000,000 acres, with an average of 247 1/2 bushels per acre. Great Britain had 2,500,000 acres, with 240 bushels per acre, and France third with 2,300,000 acres, with 223 bushels per acre. The average for Canada was 180, and for the United States 109 bushels per acre.

In Germany, which produces well over one-third of the world's potato crop, only 28 per cent of the yield is used for human food in normal years. Forty per cent of the total is fed direct to animals, 100,000 bushels are used in the making of alcohol, and 30,000,000 bushels are utilized in the manufacture of starch and allied products.

In Japan a start has also been made in the manufacture of starch from potatoes in a large way. In 1914-15 there was 35,500,000 bushels.

**THE SECRET OF THE
SUBMARINE**

THE STORY TO DATE
Dr. Burke's invention, enabling submarine craft to remain under water indefinitely, accepted by government after trial trip with Lieut. Hope, Cleo and Barnacle, nearly costs lives of all through treachery of Saturnus.

ADVENTURE OF CHAPTER TWO

With the boat uncontrollable Cleo saves the party by throwing over the lever that closes the open trap door. Dr. Burke manages by extreme effort to adjust the invention so that the air making machine again works, thus saving the party from suffocation. Meanwhile Saturnus has reached shore, and Morton, agent of Montgomery, arrives to purchase the secret. Burke refuses to deal with him and he hints to the inventor that he knows the secret of Cleo's birth. Sextus and Saturnus each ordered by their superiors, Olga and Mahlin, respectively gain entrance to the Burke home to obtain the secret. In the dim light they meet and battle, each taking the other for a member of the household. Dr. Burke receives an anonymous letter next morning containing a veiled threat on his life unless he sells the secret to the writer. Hope reports favorably to the government on the invention. That night Burke visits his library and deposits slips of paper in certain books. In the morning Cleo calls him but receives no answer. Investigating, she finds him dead.

END OF CHAPTER TWO
Alderson Picture House, Tuesday, September 4th.

The W. A. held a very encouraging and well attended meeting yesterday afternoon at the residence of Mrs. Geo. Beattie. The work for the sale of work is progressing splendidly, several of the members working at home as well as at the meetings, and the roll call is still being added to.

The Methodist Church, after undergoing a complete renovation, was reopened last Sunday evening. The building since it was re-sided and painted outside and in, and the vestibule added, has called forth many expressions of admiration from townspeople who used to consider the old building an eye sore. The work reflects much credit on Rev. Mr. Taylor and his workers who carried out the alterations. The paragon is also resplendent in a new coat of white the same as the church.

CROP STORIES

Reports of successful harvesting operations are coming in all the time. The week up to time of writing has been quite a favorable one to running the binders and practically every farmer in this big district between the Bow and the Red Deer River is busy.

O. E. Nerland of Bluegrass, was in town Monday. Mr. Nerland reports that his entire crop is in stock, and is well pleased.

In a little trip north of town on Sunday last the editor saw splendid crops of wheat, oats and barley all ready for the binder on the farms of Messrs. Hall, Lookram, Gledley, Russell, Haight, Benson, Rowatt, Doyle, McNab and Swandby. Many of the fields were already in the stock.

B. F. Hanson has three parts of his crop, and a good one it is, in the stock.

Fine big crops are being taken off the farms of A. D. Thompson, Mr. and Mrs. Dodds are residing on the Thompson homestead and Mr. Dodds is in charge of operations.

The Rainy Valley Auto Club was in town on Sunday, and Messrs. Decker, McDonald, Bone, and Stead all had a contented prosperous look. Rainy Valley is proud of its 1916 crop.

The story comes from Carman-gay that a man over there got a cheque for \$3000 for a 1200 car load of wheat. That story will be very common in a few weeks.

Send in your yield when the threshing begins. The News is saving them up.

Remember the News will be sent to any address in the U. S. until the first of the year for 50 cents.

FOR SALE—An aged horse, serviceable and sound, good worker. Price \$50.00, or would trade for good heifer. S. Rozzars, Suffield.
